THE UNITED STATES OF AMERICA  
DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT  
WASHINGTON, D. C. 20250

REPORT OF THE  
LAND ACQUISITION  
COMMISSION  
FOR THE  
BUREAU OF LAND MANAGEMENT  
WASHINGTON, D. C. 20250

1. The purpose of this report is to provide a detailed account of the land acquisition process for the Bureau of Land Management. This includes a description of the land being acquired, the methods used to acquire it, and the results of the acquisition. The report also includes a discussion of the legal and administrative aspects of the acquisition process, and a summary of the findings of the commission.

2. The land being acquired is located in the State of California, and is of approximately 100 acres in area. The land is currently owned by a private individual, and is being acquired by the Bureau of Land Management for the purpose of establishing a national monument. The land is located in a rural area, and is surrounded by agricultural land. The land is of high quality, and is suitable for a variety of uses, including agriculture, recreation, and conservation.

3. The methods used to acquire the land include the purchase of the land from the private owner, and the acquisition of the land through the exercise of the Bureau's eminent domain powers. The purchase of the land was made at a price of \$100,000, and the acquisition of the land through the exercise of the Bureau's eminent domain powers was made at a price of \$200,000. The total cost of the acquisition was \$300,000.

4. The results of the acquisition are that the land has been added to the Bureau's land holdings, and is now available for the establishment of a national monument. The land is currently being used for agriculture, and is being managed by the Bureau of Land Management. The land is of high quality, and is suitable for a variety of uses, including agriculture, recreation, and conservation.

5. The legal and administrative aspects of the acquisition process are discussed in detail in the report. The legal aspects include the acquisition of the land through the exercise of the Bureau's eminent domain powers, and the acquisition of the land through the purchase of the land from the private owner. The administrative aspects include the acquisition of the land through the exercise of the Bureau's eminent domain powers, and the acquisition of the land through the purchase of the land from the private owner.

6. The findings of the commission are that the land acquisition process was successful, and that the land is now available for the establishment of a national monument. The land is of high quality, and is suitable for a variety of uses, including agriculture, recreation, and conservation. The land is currently being used for agriculture, and is being managed by the Bureau of Land Management.

Director of Nuclear Reactor Regulation  
Attention: Dennis M. Crutchfield, Chief  
Operating Reactors Branch #5  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Inservice Pump and Valve Testing Program  
R. E. Ginna Nuclear Power Plant Unit #1  
Docket No. 50-244

Dear Mr. Crutchfield:

In accordance with the requirements of 10CFR Part 50, Section 50.55a, paragraph (g), we have enclosed the Ginna Station Inservice Pump and Valve Testing Program for the January 1, 1981 through December 31, 1990 interval. This enclosure is entitled "Appendix C to the Ginna Station Quality Assurance Manual". This revised program is very similar to the current program submitted November 15, 1979. In accordance with 10CFR 50.55a paragraph (g)(4)(ii) this program is based on the 1977 Edition of Section XI with addenda through the Summer 1978 addenda. Test Category E (locked valves) has been deleted from the program consistent with the deletion from the referenced Code edition.

Additional containment isolation valves have also been added to Category A so that this program scope is consistent with that of Technical Specifications.

Since the current program, which has yet to receive NRC approval, expires on December 31, 1980, it is our intention to implement the revised Appendix C on January 1, pending subsequent NRC approval. Enclosed are forty (40) copies of this letter and the attachments.

Very truly yours,

*L. D. White, Jr.*
