Subject: Steam Generator Snubber Replacement
R.E. Ginna Nuclear Power Plant
Docket No. 50-244

References: 1. Meeting Summary, dated July 29, 1988 from Carl Stahle (USNRC)
2. Application for Amendment attached to a letter dated May 13, 1988 from B.A. Snow (RG&E)

Dear Mr. Stahle:

Reference 1 summarized the results of a meeting held July 20, 1988 to discuss Rochester Gas & Electric Corporation's Application in Reference 2 concerning the steam generator snubber replacement program. Although technical understanding of the program was achieved at the meeting, RG&E was requested to document additional information discussed at that meeting. Enclosed is a revised report, Steam Generator Hydraulic Snubber Replacement Program, Revision 3, which contains the additional information concerning the two analysis cases performed for the reactor coolant loop in the hot condition and the analysis performed for the cold condition.

Very truly yours,

Robert E. Smith
