Re: Rochester Gas and Electric Corporation,  
R.E. Ginna Nuclear Power Plant  
Docket No. 50-244

Dear Mr. Denton:

Enclosed are:

1. Three (3) originals and nineteen (19) copies of an Application for Amendment to Operating License to amend Appendix A of that license to revise containment internal pressure limitations.
2. Forty (40) copies of documents designated Attachments A and B which set forth the requested change in Technical Specifications, its safety evaluation, and the basis for determining that the change does not involve a significant hazards consideration, and
3. A check for \$150 in accordance with 10 CFR 170.12.

The Amendment is necessary to make Technical Specifications consistent with assumptions made in a recent containment integrity analysis.

Very truly yours,

*Roger W. Kober*
