1. The first part of the report is a general statement of the purpose and scope of the study. It is followed by a brief review of the literature on the subject. The third part of the report is a description of the methods used in the study. The fourth part is a presentation of the results of the study. The fifth part is a discussion of the results and their implications. The sixth part is a conclusion.

2. The second part of the report is a detailed description of the methods used in the study. It includes a description of the subjects, the materials, and the procedures. It also includes a description of the data collection and analysis methods.

3. The third part of the report is a presentation of the results of the study. It includes a description of the data and a discussion of the results. It also includes a discussion of the implications of the results.

PWR Project Directorate No. 1  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Detailed Control Room Design Review  
R. E. Ginna Nuclear Power Plant  
Docket No. 50-244

Dear Mr. Lear:

An NRC order dated June 12, 1984 confirmed RG&E's commitment to submit a summary report for a Detailed Control Room Design Review (DCRDR) by December 31, 1985. The summary report, required by Supplement 1 to NUREG-0737, has been completed and eight copies are submitted with this letter.

Very truly yours,

Roger W. Kober
