TOTAL NUMBER OF COPIES REQUIRED: LTTR 27 ENCL 24

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting process, from the initial entry of data into the system to the final review and approval of the records.

3. The third part of the document addresses the issue of data security. It discusses the various risks associated with the loss or theft of financial data and provides recommendations for implementing effective security measures to protect the information.

4. The fourth part of the document discusses the importance of regular audits. It explains how audits can help to identify errors and discrepancies in the records and ensure that the system is operating in accordance with established standards and regulations.

5. The fifth part of the document discusses the importance of training and education. It emphasizes that all personnel involved in the financial system must be properly trained and educated to ensure the accuracy and reliability of the records.

6. The sixth part of the document discusses the importance of communication. It explains that clear and effective communication is essential for the successful implementation of any financial system and for the ability to resolve any issues that may arise.

7. The seventh part of the document discusses the importance of documentation. It emphasizes that all transactions and decisions must be properly documented to ensure that there is a clear and complete record of all activities.

8. The eighth part of the document discusses the importance of transparency. It explains that transparency is essential for building trust and confidence in the financial system and for ensuring that all stakeholders have access to the information they need to make informed decisions.

9. The ninth part of the document discusses the importance of accountability. It emphasizes that all personnel must be held accountable for their actions and decisions, and that there must be a clear system in place for identifying and addressing any wrongdoing.

10. The tenth part of the document discusses the importance of continuous improvement. It explains that the financial system must be regularly reviewed and updated to ensure that it remains effective and efficient in the face of changing circumstances.

Operating Reactors Branch No. 5
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

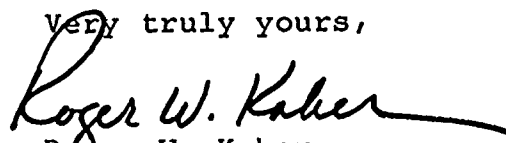

Subject: Modification of Spent Fuel Storage Racks
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Paulson:

On September 24, 1984 members of the NRC staff met with representatives of Rochester Gas and Electric Corporation and its contractor U. S. Tool and Die to discuss the revised seismic analysis for our submittal of April 2, 1984.

During this meeting we agreed to verify the weld orientation in the racks when a rack was removed from the pool. On October 22, 1984 Mr. John Cook (RG&E) and Mr. Dale Michel (USTD) inspected Rack 5 and verified that the orientation of the welds in the rack was consistent with that indicated on Figure 5.2.1 of the mechanical analysis attached to our September 27, 1984 letter. This orientation was used in the calculations.

Very truly yours,

Roger W. Kober
