Dear Mr. Crutchfield:

Our review and evaluation of the NRC "Request For Additional Information" dated September 21, 1983, has resulted in the need for an additional technical evaluation. We are currently reviewing proposals from consultants which will enable us to provide this requested additional information.

Based on the proposals we have received, the completion of the additional engineering required will allow a response to the NRC by April 2, 1984.

Sincerely,
