Subject: NUREG-0737 Technical Specifications
(Generic Letter No. 83-37)
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Crutchfield:

Generic Letter 83-37 requested that licensees review their facility's Technical Specifications to determine if they are consistent with guidance provided by the NRC staff for certain TMI Action Plan items. The letter recommended that licensees submit applications for Technical Specification amendments, as appropriate, and that the schedule for submittal be negotiated with the facility Project Manager if the recommended schedule could not be achieved. RG&E has agreed upon a schedule with our NRR Project Manager, Mr. George Dick. The review of Ginna Technical Specifications will be completed and appropriate amendments proposed by April 30, 1983.

Very truly yours,

John E. Maier
