1. The first part of the report is a general description of the project and its objectives. It includes a brief history of the project and a statement of the problem being addressed. The second part of the report is a detailed description of the methodology used in the study. This includes a description of the data collection methods, the statistical methods used for data analysis, and the results of the study. The third part of the report is a discussion of the results and their implications. This includes a comparison of the results with previous studies and a discussion of the limitations of the study. The fourth part of the report is a conclusion and a list of references.

Director of Nuclear Reactor Regulation  
Attention: Mr. Dennis M. Crutchfield, Chief  
Operating Reactors Branch No. 5  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Offsite Dose Calculating Manual  
Rochester Gas and Electric Corporation  
R. E. Ginna Nuclear Power Plant  
Docket No. 50-244

Dear Mr. Crutchfield:

Enclosed are six (6) copies of the Ginna Offsite Dose Calculating Manual (ODCM), Revision 1. This revision supersedes the ODCM previously submitted to the Commission on May 29, 1979, and incorporates changes resulting from the review performed by the NRC contractor, Franklin Research Center.

Very truly yours,

*John E. Maier*
