Subject: NUREG 0737 Item T.A.1.1, Shift Technical Advisor
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Crutchfield:

In an August 5, 1980 letter from Rochester Gas and Electric, Mr. L. D. White, Jr. to NRC Mr. D. M. Crutchfield, we committed to provide a Shift Technical Advisor on each shift. This letter is to inform you of a change in the specific way that Rochester Gas and Electric Corporation commitment to provide Shift Technical Advisors to the operating shift is now being met.

Since November 28, 1981, RG&E has assigned each STA to a twenty-four hour shift. We continue to have the STA on site and within 10 minutes of the Control Room and are providing adequate sleeping facilities for the STA on-site.

Since we are providing sleeping facilities for the STA, the STA is now exempt from the overtime restrictions that were stated in our October 13, 1980 response concerning shift staffing. The only remaining restriction is that the STA shall not work more than 14 consecutive days without having two consecutive days off.

Very truly yours,

John E. Maier
