Subject: SEP Topic VII-1.A, Reactor Protection System Isolation
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Crutchfield:

Rochester Gas and Electric has reviewed the NRC's assessment of SEP Topic VII-1.A, "Reactor Protection System Isolation," transmitted by letter dated December 12, 1980. We agree that the information in the assessment is correct. Since the assessment determined that the isolation of the reactor protection system from non-safety systems satisfies the current licensing criteria, we have designated this topic as complete.

Very truly yours,

John E. Maier
