Operating Reactors Branch #5
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: SEP Topics III-6 and III-11, "Seismic Design Considerations"
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Crutchfield:

On February 6, 1981 we submitted our response to NUREG/CR-1821, "Seismic Review of the Robert E. Ginna Nuclear Power Plant as part of the Systematic Evaluation Program." Our response indicated that schedule data for evaluation of certain items would be supplied by March 23, 1981.

The required evaluations are currently scheduled to be completed on the following dates:

Component Cooling Water Surge Tank	August 1, 1981
Bracing in Auxiliary & Turbine Buildings	October 1, 1981
Service Water Pumps	November 1, 1981
Refueling Water Storage Tank	December 1, 1981

It should be noted that the dates specified above are the anticipated dates that an analysis will be complete to verify that the component is acceptable as is or the date that a conceptual modification, if required, will be defined.

Very truly yours,

John E. Maier
