JOHN E. MAIER  
VICE PRESIDENT

April 23, 1981

Mr. Dennis M. Crutchfield, Chief  
Operating Reactors Branch No. 5  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Inservice Inspection Program for the 1980 to 1989  
Interval  
R. E. Ginna Nuclear Power Plant, Unit No. 1  
Docket No. 50-244

Dear Mr. Crutchfield:

By letter dated July 2, 1979, and in accordance with the requirements of 10 CFR Section 50.55a paragraph (g), we submitted the "Ginna Station Inservice Inspection Program for the 1980-1989 Interval." That program has been implemented. By letter dated November 6, 1980 we submitted changes to that program in order to permit installation of test sleeves in steam generator tubes.

In order to permit the installation of additional sleeves in steam generator tubes at Ginna; and make the changes requested in your letter dated April 8, 1981, Paragraphs 3.5, 5.7, 6.5, 6.6 and 6.7 have been revised. These revisions have been reviewed by the Plant Operations Review Committee and Nuclear Safety Audit and Review Board; and found not to involve an unreviewed safety question or require a Technical Specification change.

Very truly yours,

*John E. Maier*  
J. E. Maier
