Subject: USNRC Letter dated February 21, 1981
SEP Seismic Piping Review
R. E. Ginna Nuclear Power Plant, Unit No. 1
Docket No. 50-244

Dear Mr. Crutchfield:

Enclosed are three (3) copies of the piping information you requested for residual heat removal line RHR-100. This includes the input information necessary for you to perform independent review; and summary of the results of our seismic upgrade program analyses. Included are RHR-100 piping system engineering data, support stiffness summary sheet, isometric drawings, piping system orthographic drawings, and pipe support drawings. As discussed in a telephone conversation yesterday with Mr. Snaider of your staff, the same information for safety injection line SIS-210 will be provided April 6, 1981.

Very truly yours,

John E. Maier
