Subject: Annual Submittal of Updated Final Safety Analysis
Report (UFSAR), Revision 3
R.E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Stahle

In accordance with 10CFR50.71(e), Rochester Gas and Electric has prepared its 1987 annual revision to the Updated Final Safety Analysis Report (UFSAR). Enclosed are the original and 12 copies of the revised pages, along with a list of effective pages. Change bars marked with a "3" indicate those revisions which were incorporated for this year's submittal. It is noted that change bar indicators without a "3" or "2" placed next to them designate those revisions made for RG&E's first annual revision to the UFSAR. The original UFSAR was submitted in December 1984.

The information presented in Revision 3 represents changes to the facility since the last revision, and information and analyses prepared pursuant to Commission requirements.

Very truly yours,

Roger W. Kober
