Subject: License Amendment - Change of License Expiration Date
R.E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Stahle:

When designed and built, the R.E. Ginna Station was considered to have an operating life of at least 40 years. While studies will continue to facilitate further extension of the Ginna license, this letter is being sent to extend it to allow a full 40 years of operation beyond the date of the provisional operating license issuance. In support of this extension the following materials are enclosed:

1. An Application to amend the Operating License to reflect that the license will not expire until midnight, September 18, 2009 rather than the present date of April 25, 2006.
2. A check for \$150 in accordance with 10CFR170.12.

Very truly yours,

Bruce A. Snow
Superintendent
Nuclear Production
