R.E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Stahle:

Enclosed is an Application for Amendment to Operating License to amend Appendix A of that license to place steam generator tube and sleeve repair criteria in the Specifications.

This proposed Amendment merely incorporates the repair criteria already referenced by the Technical Specifications directly into the Technical Specifications. The enclosed criteria, as they currently appear in the Ginna Quality Assurance Manual, will be used during the spring 1989 steam generator inspection.

Very truly yours,

Robert E. Smith
