Subject: Containment Integrity
R. E. Ginna Nuclear Power Plant
Docket No. 50-244

Reference: USNRC Meeting with RG&E December 13, 1990

Dear Mr. Johnson:

Based on a request by Mr. Jeng and Mr. Ashar of your staff at the December 13, 1990 meeting at ABB Impell's office in Boston, by way of this letter, I am forwarding to you photographic prints of the slides presented at the meeting by Mr. Sucheski of RG&E. These photographs show the condition of the Containment Cylinder/Ring Beam joint of the foundation structure after our work in removing the standing water in the area had been completed. They were taken on December 3, 1990 and shot randomly showing all areas of the foundation structure that could be affected by groundwater.

If you have any questions or comments, please contact Mr. L. A. Sucheski at 716-724-8112.

Very truly yours,

Robert C. Meccredy
