

UNITED STATES OF AMERICA  
NUCLEAR REGULATORY COMMISSION

In the Matter of )  
Rochester Gas and Electric Corporation ) Docket No. 50-244  
(R.E. Ginna Nuclear Power Plant) )

APPLICATION FOR AMENDMENT  
TO OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the U.S. Nuclear Regulatory Commission (the "Commission"), Rochester Gas and Electric Corporation ("RG&E"), holder of Facility Operating License No. DPR-18, hereby requests that the Technical Specifications set forth in Appendix A to that license be amended. This request for change in Technical Specifications is submitted to remove the table of Containment Isolation Valves and provide a reference in the bases to the UFSAR. The containment isolation requirements during refueling operations are also revised consistent with industry standards. Temporary notes associated with the containment purge and mini-purge systems are being removed since the purge valve flanges and the mini-purge system have been installed. Also, surveillance testing requirements in Section 4.4 associated with containment leakage acceptance criteria are clarified and requirements for the new steam generator inspection/maintenance penetration are provided.

(11)

The proposed Technical Specification change is set forth in Attachment A to this Application. A safety evaluation is set forth in Attachment B. This evaluation demonstrates that the proposed change does not involve a significant change in the types or a significant increase in the amounts of effluents or any change in the authorized power level of the facility. As demonstrated in Attachment B, the proposed change does not involve a significant hazards consideration. Also, requests for relief from certain provisions of 10 CFR 50, Appendix J are set forth in Attachment C. Relief is necessary in support of this amendment request.

WHEREFORE, Applicant respectfully requests that Appendix A to Facility Operating License No. DPR-18 be amended in the form attached hereto as Attachment A and that the 10 CFR 50 Appendix J relief requests provided in Attachment C be granted.
