Subject: 10CFR21 Reporting Clarification
R.E. Ginna Nuclear Power Plant
Docket No. 50-244

Dear Mr. Johnson:

This letter summarizes a discussion between NRC (Walt Haas) and RG&E concerning reportability requirements. It was agreed that, if an Information Notice has been issued to address a defect in a part or a component, the requirements for reporting under 10CFR21.21 have already been fulfilled, and no further reporting under this regulation is required as provided for under 10CFR21(c)(2). Of course, this does not relieve a licensee from meeting reporting requirements of other regulations, nor of performing requisite corrective actions.

Very truly yours,

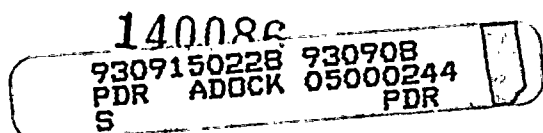

Robert C. Mecredy
