William T. Russell, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Document Control Desk

Subject: Zion Station Unit 1 and 2
Reactor Pressure Vessel Structural
Integrity (G.L. 92-01 Revision 1)
NRC Docket Nos. 50-295 and 50-304

Reference: May 12, 1994 C. Shiraki letter to D. Farrar

Dear Mr. Russell,

For the past several years, the B&W Owners Group has attempted to the greatest possible extent to treat Reactor Vessel material issues generically. Most, but not all, of the Reactor Vessel Working Group utilities have received letters from the NRC Staff requesting additional information regarding the subject Generic Letter.

The Reference letter requested the following information:

- 1) For Zion Units 1 and 2, Commonwealth Edison Company (CECo) must provide confirmation that Topical Report BAW 2178P is applicable and request approval to use this topical to demonstrate compliance with 10 CFR 50, Appendix G, Paragraph IV.A.1;
- 2) For Zion Units 1 and 2, CEC Co must verify the information provided has been accurately entered in the Reactor Vessel Integrity Database; and
- 3) For Zion Unit 2, CEC Co must provide confirmation that the Upper Shelf Energy for Forging ZV3855 is greater than 50 ft-lb.

The B&WOG members believe it would be efficient for both the utilities and the NRC to deal with these requests generically. The appropriate schedule for doing so would be 30 days after the last utility received their letter from the NRC. The utilities and plants involved are:

7406160320 740609

June 9, 1994

UTILITY

Entergy Operations, Inc.
Commonwealth Edison Company
Duke Power Company
Florida Power Corporation
Florida Power & Light Company
GPU Nuclear Corporation
Rochester Gas & Electric
Toledo Edison Company
Virginia Power Company
Wisconsin Electric Power Company

PLANT

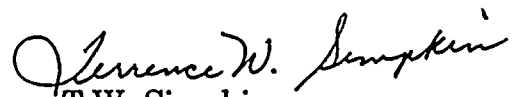

Arkansas Nuclear One Unit 1
Zion 1, 2
Oconee 1, 2, 3
Crystal River 3
Turkey Point 3, 4
Three Mile Island 1
Ginna
Davis-Besse
Surry 1, 2
Point Beach 1 and 2

The feasibility of a generic response by the members of the Owners Group was discussed between representatives of the Owners Group and Mr. J.R. Strosnider of the NRC Staff. He agreed that this was reasonable and would not affect the Staff's overall schedule of planned actions. He did note that it would be necessary to have a letter of response on each docket which either includes or references the generic response.

CECo plans to respond to the Reference letter consistent with the agreements with Mr. Strosnider. The next response will be submitted prior to June 24, 1994.

Please direct any questions to this office.

Sincerely,

T.W. Simpkin
Nuclear Licensing Administrator
