Dear Sirs:

The enclosed information is being submitted in accordance with the requirement of Technical Specification Section 5.6.2.

This information is a summary of all analyses performed as part of the Radiological Environment Monitoring Program described in the R.E. Ginna Offsite Dose Calculation Manual. Trend plots of gross beta data for air and selected water samples are included for 1996 and the years of 1968 to 1996.

From the data collected, there does not appear to be any measurable effect to the environment from the operation of the R.E. Ginna plant.

Very truly yours,
