2. The following information is provided for the year ended 31 December 2014:

1. The first group of people who are likely to be affected by the proposed project are the local residents who live in the vicinity of the project site. The project is located in a residential area, and the proposed activities may result in noise, dust, and other disturbances that could affect the quality of life of the local residents. The project proponent should take measures to minimize these impacts, such as implementing noise control measures and dust suppression techniques.

In the Matter of Washington Public Power Supply System
(WPPSS Nuclear Project No. 2)
Docket No. 50-397-OL

Gentlemen:

By Order dated March 6, 1979, the Atomic Safety and Licensing Board denied the petitions for leave to intervene which were filed in this proceeding by Susan M. Garrett, Helen Vozenilek, Creg Darby, and the Hanford Conversion Project ("HCP"). The time prescribed in 10 CFR §2.714a for appealing that Order has expired, and no petitioner has noticed an appeal. Accordingly, the Board's Order is now final.

While the petitions to intervene were pending, the NRC Staff included then-petitioners Garrett and Vozenilek, and the law firm of Nepom & Rose (counsel to petitioners), on

the service list for all correspondence relating to the WNP-2 OL review. Since the Board's Order is now final, and thus Miss Garrett, Miss Vozenilek, Mr. Darby, and HCP are neither petitioners to intervene nor parties to the proceeding, we request that you delete their names from your service list and refrain from providing them with copies of correspondence in this docket.

Sincerely,

Nicholas S. Reynolds
Counsel for the Applicant
