Docket No. 50-397

Mr. Lester Rubenstein, Chief
Light Water Reactors Branch No. 4
Division of Project Management
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Rubenstein:

Subject: WASHINGTON PUBLIC POWER SUPPLY SYSTEM
PROJECT #2 TRAINING AND QUALIFICATION
PLAN (NRC DOCKET NO. 50-397)

In a recent discussion with Mr. A. A. Sinisgalli, the possibility of an extension of the submittal date of the Washington Nuclear Project #2 Training and Qualification Plan was discussed. This extension is being requested in order to incorporate modification to the draft WNP-2 Plan brought about by the recently published NUREG 0576, Nuclear Power Reactor Security Personnel Training and Qualification Plan Reviewer Workbook.

Based on the above conversation, an extension of the submittal date to December 15, 1979, is requested. This will align the submittal date of the WNP-2 Training and Qualification Plan to approximately one year prior to fuel load and provide adequate time to make the necessary modifications caused by NUREG 0576.

Your favorable consideration of this request is solicited.

Sincerely,

D L Renberger
