Mr. R..H. Engelken, Director
U. S. Nuclear Regulatory Commission
Region V
1990 N. California Boulevard
Suite 202, Walnut Creek Plaza
Walnut Creek, CA 94596

Subject: IE BULLETIN 79-19
WPPSS NUCLEAR PROJECT NO. 2

Dear Mr. Engelken:

The subject IE Bulletin requests action to be taken by Licensees to ensure the safe transfer, packaging and transport of low level radioactive waste. We have reviewed the Bulletin and will assure that recommendations contained in items 1-7 will be met for our plants when they reach the operating stage.

Due to the fact that we do not have any nuclear plants operating at the present time, the audit required to meet item 8 of the Bulletin will not be performed at this time. For the same reason, the questions listed under item 9 do not apply to our current situation.

Very truly yours,

D L Renberger
