January 6, 1981
GO-1-81-01 Docket 50-397

Attention: Mr. R. H. Engelken, Director

Subject: WPPSS Nuclear Projects Nos. 1/4
Extension of WPPSS Response to
IE Bulletin 80-21

Dear Mr. Engelken:

Confirming the December 31, 1980 telecon between T. J. Houchins of the Supply System and T. W. Bishop, of Region V NRC in which the Supply System requested a thirty (30) day extension to respond to IE Bulletin 80-21 in order for our Architect Engineer to complete a review of all valve manufacturers to determine if valve parts cast by Malcolm Foundary Company, Incorporated have been used in valves for safety related systems at WNP-1/4.

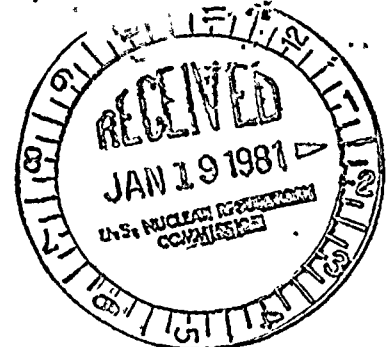

If further information is required, please contact L.C. Oakes of my staff.

Very truly yours,

for *D. W. Mazur*
