Submittal of Proprietary SRV Report

Reference: 1. Chugging Loads - Revised Definition and
Application Methodology For Mark II Containments.
2. General Electric Company Report, "4T
Condensation Oscillation Test Program
Final Test Report", NEDE-24811-P, May, 1980.

Gentlemen:

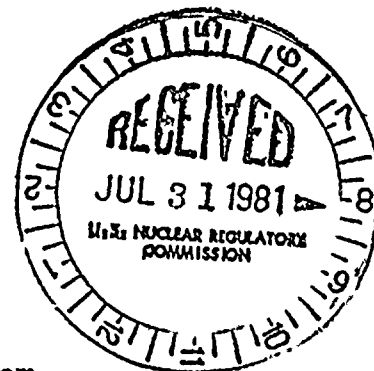

The Reference 1 report prepared by Burns and Roe, Inc. contains information which is proprietary and is indicated by "bars" drawn in the margin of the text of this report and by the words "Burns and Roe, Inc. Proprietary" in the table and the margins of the text. Additional information supplied to Burns and Roe, Inc. under proprietary agreement is information considered proprietary by the General Electric Company. For the corporate policy reasons stated in the affidavit that accompanied the submittal of NEDE-24811-P (Reference 2), General Electric Company requests that the information in this, as well as other proprietary reports, individually designated General Electric Company Proprietary, be treated in a proprietary manner and be withheld from public disclosure in accordance with the provisions of the 10CFR2.790. Burns and Roe, Inc. requests that the information in the Proprietary report designated Burns and Roe, Inc. Proprietary, be treated in a proprietary manner and be withheld from public disclosure in accordance with the provisions of 10CFR2.790.
