THE  
UNITED STATES  
DEPARTMENT OF THE ARMY  
OFFICE OF THE CHIEF OF STAFF  
WASHINGTON, D. C.  
20315-4000

1. The purpose of this document is to provide information regarding the current status of the Department of the Army's efforts to improve the quality of its personnel and the effectiveness of its operations. This document is intended for the use of the Department of the Army's senior leadership and the Department of Defense's senior leadership.

2. The Department of the Army is committed to the highest standards of personnel and operations. The Department is currently implementing a number of initiatives to improve the quality of its personnel and the effectiveness of its operations. These initiatives include the following:

- a. The Department is implementing a new personnel management system that will provide for the most effective use of personnel resources.
- b. The Department is implementing a new operations management system that will provide for the most effective use of operations resources.
- c. The Department is implementing a new training management system that will provide for the most effective use of training resources.
- d. The Department is implementing a new research and development management system that will provide for the most effective use of research and development resources.

3. The Department of the Army is committed to the highest standards of personnel and operations. The Department is currently implementing a number of initiatives to improve the quality of its personnel and the effectiveness of its operations. These initiatives include the following:

- a. The Department is implementing a new personnel management system that will provide for the most effective use of personnel resources.
- b. The Department is implementing a new operations management system that will provide for the most effective use of operations resources.
- c. The Department is implementing a new training management system that will provide for the most effective use of training resources.
- d. The Department is implementing a new research and development management system that will provide for the most effective use of research and development resources.

4. The Department of the Army is committed to the highest standards of personnel and operations. The Department is currently implementing a number of initiatives to improve the quality of its personnel and the effectiveness of its operations. These initiatives include the following:

- a. The Department is implementing a new personnel management system that will provide for the most effective use of personnel resources.
- b. The Department is implementing a new operations management system that will provide for the most effective use of operations resources.
- c. The Department is implementing a new training management system that will provide for the most effective use of training resources.
- d. The Department is implementing a new research and development management system that will provide for the most effective use of research and development resources.

## Washington Public Power Supply System

P.O. Box 968 3000 George Washington Way Richland, Washington 99352 (509)372-5000

February 5, 1982  
G02-82-148

Docket No. 50-397

Mr. A. Schwencer, Chief  
Licensing Branch No. 2  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2  
WNP-2 CONTAINMENT PROTECTIVE COATINGS

In response to a telephone call with F. Witt of your staff, the following information is provided describing the WNP-2 Containment Protective Coatings:

- WNP-2 has intended by contract specifications that no unqualified coating on equipment or structures exists in the WNP-2 Containment.
- However, WNP-2 has implemented a program to verify that the specifications have been complied with. The results of this program will be available by March 1, 1982. At that time an estimate of the amount of unqualified coatings in containment will be submitted.
- WNP-2 will do an analysis on the effect of unqualified coating related debris on emergency cooling system operation. If required, by that analysis, WNP-2 will remove a sufficient amount of unqualified coating to eliminate any potential impact on the Emergency Core Cooling System.

Very truly yours,

G. D. Bouchey  
Deputy Director, Safety and Security
