Docket No. 50-397

Mr. A. Schwencer, Chief  
Licensing Branch No. 2  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2  
WNP-2 RESPONSE TO NUREG-0612,  
"CONTROL OF HEAVY LOADS"

Reference: a) Letter, D.C. Eisenhut to All Licensees, et al,  
"Control of Heavy Loads", dated December 23, 1981  
b) Letter, G.D. Bouchey (SS) to A. Schwencer (NRC),  
Same Subject, dated January 13, 1982

Reference (a) requested confirmation, within 90 days of receipt, that interim actions forwarded with reference (a) had been implemented. Submittal of a final report was to follow.

WNP-2, being a near term operating license applicant, submitted the final report (reference (b)) in lieu of an interim report as sufficient time exists to implement the final report prior to operations. However, to support the Safety Evaluation Report review process, this letter confirms that the final report (reference (b)) encompasses or exceeds the requirements requested for an interim response by reference (a).

Very truly yours,

G. D. Bouchey  
Deputy Director, Safety and Security
