Docket No. 50-397

Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2
DESCRIPTION OF SUPPLY SYSTEM
EMERGENCY RESPONSE FACILITIES

Appendix D to NUREG-0892, WNP-2 Safety Evaluation Report, requested a detailed description of how the WNP-2 emergency response facilities conform to the criteria of NUREG-0696, "Functional Criteria for Emergency Response Facilities". The attached document, written in the same format as NUREG-0696, satisfies that request.

The described Emergency Response Facilities will aid the Supply System to more effectively:

- Diagnose, mitigate and recover from emergency situations;
- Manage plant operations and emergency response;
- Keep federal, state and local officials informed, and;
- Recommend public protective measures to state and local officials.

As described, the Supply System Emergency Response Facilities fulfill the objective and purpose of the guidance offered by NUREG-0696.

Should you have any further questions, please contact Mr. R. M. Nelson, Manager, WNP-2 Project Licensing.

Very truly yours,

G. D. Bouchey
Deputy Director, Safety and Security
