Mr. R. H. Engelken
U. S. Nuclear Regulatory Commission

Dear Mr. Engelken:

Subject: WNP-2 PLANT VERIFICATION REPORT

Enclosed are two copies of the current WNP-2 Plant Verification Report for your information. This report will form the basis for our presentation to NRC on November 10. The report has not substantially changed, since the draft we provided during our June 15, 1982, meeting in Walnut Creek.

The revisions reflect comments by the independent outside technical auditor, Technical Audit Associates, and clarifications which resulted from our working with the document over the past few months.

Very truly yours,

R. B. Glasscock, Director
Licensing and Assurance
