Docket No. 50-397  
and 50-508

March 4, 1983  
G02-83-190

Director, Office of Nuclear Reactor Regulation  
Attention: Mr. D. G. Eisenhut, Director  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Eisenhut,

SUBJECT: Operator Licensing Exam Schedules

Reference: NRC Generic Letter 83-01, DG Eisenhut to Licensees and  
OL Applicants, dated January 11, 1983.

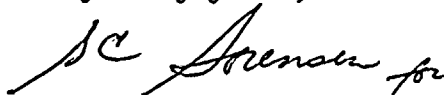

The NRC will be requested to make site visits to our WNP-2 site near  
Richland, Washington and our WNP-3 site near Satsop, Washington, to  
conduct operator licensing exams as indicated in the attached table.

The August and November 1985 dates for WNP-3 would be for the purpose  
of conducting the written and oral exams, respectively.

Please consider this letter as formal notification of our need for  
operator licensing exams at WNP-2 in May and June of this year.

We will keep you advised of any changes to this schedule.

Very truly yours,

G. D. Bouche, Manager  
Nuclear Safety and Regulatory Programs

GCS/cdp

\*Categories from referenced letter:

- Category 1 - Initial (cold) license examinations for units applying for operating licenses.
- Category 5 - Examinations for initial licensing of personnel at operating facilities or for upgrading a license from the Reactor Operator to the Senior Operator level.

February 28, 1983  
L-83-101

Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eischenhut, Director  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20545

Dear Mr. Eischenhut:

Re: St. Lucie Unit No. 2  
Docket No.                      80-339  
Radiation Protection Program

The purpose of this letter is to inform you that Florida Power & Light Company plans to implement the St. Lucie Unit No. 2 Radiation Protection Program at least five days prior to initial criticality, rather than prior to core load. This implementation schedule is appropriate, in that the reactor plant will not have been operated, and therefore, there will be no source of radioactivity or radiation. Also, implementation at least five days prior to initial criticality will allow sufficient time to ensure that personnel are familiar with the program as required, by initial criticality.

Your concurrence with this proposed implementation schedule is requested.

Very truly yours,

*Robert E. Uhrig*
