Washington Public Power Supply System

P.O. Box 968 3000 George Washington Way Richland, Washington 99352 (509)372-5000

May 3, 1983
G02-83-401

Director of Nuclear Reactor Regulation
Attention: Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2,
CPPR-93, PRESERVICE INSPECTION PROGRAM PLAN, VOLUME
NO. 4, "PRESERVICE INSPECTION SUMMARY REPORT"

References: a) G02-79-54, dated March 28, 1979
b) G02-79-89, dated May 9, 1979
c) G02-80-311, dated December 31, 1980
d) G02-81-565, dated December 30, 1981

The Washington Public Power Supply System herewith submits five (5) copies of the Preservice Inspection Summary Report designated Volume 4 of the Preservice Inspection Program Plan. Five (5) copies of the Program Plan and Amendments 1, 2 and 3 were originally submitted to you via the referenced letters.

The Summary Report documents the Supply System's completion of approximately 98% of the volumetric and surface examinations committed to in the Preservice Inspection Program Plan. Also submitted as part of the Summary Report are 23, NIS-2 Owner's Report of Repair or Replacement forms for repairs or replacements completed to March 31, 1983.

In addition to documenting the volumetric and surface examinations and repairs and replacements, the Summary Report includes Request for Relief PSI-2-001. This section of the report documents all areas the Supply System found that could not be fully examined to the ASME Section XI Code. The Request for Relief contains only a few welds, all of which received a partial code examination. It is anticipated that no additional welds will be added to this request for relief.

Mr. A. Schwencer, NRC
Page Two

A supplement to this Summary Report will be submitted within 90 days after commercial operation. This supplement will contain a summary of the results of the remaining surface, visual and volumetric examinations. Also contained in this supplement will be NIS-2 Owner's Reports for all repairs and replacements completed from March 31, 1983 to commercial operations and the NIS-1 Owner's Data Report for the Preservice Inspection.

Very truly yours,

G. D. Bouchey, 340
Manager, Nuclear Safety and
Regulatory Programs
