Docket No. 50-397

August 12, 1983  
G02-83-724

Director of Nuclear Reactor Regulation  
Attention: A. Schwencer, Chief  
Licensing Branch No. 2  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2  
CONFIRMATORY ISSUE NO. 22  
ESF FUNCTIONING (II.K.1.5) AND SAFETY  
RELATED SYSTEMS OPERABILITY STATUS(II.K.1.10)

Reference: Letter, GD Bouchey to A. Schwencer, same subject,  
dated March 23, 1983

In the referenced letter, it was noted that certain plant procedures dealing with the subject TMI action plan items had been reviewed by NRC Region V inspectors, thus closing Confirmatory Issue No. 22. Subsequent discussions with the Region V inspector revealed that these procedures had not been reviewed by the inspector.

The procedures were reviewed by the inspector during his site visit May 16-20, 1983. This review identified certain issues which need to be resolved by the Supply System. Pending completion of the actions required to correct the issues raised by the inspector, Confirmatory Issue No. 22 (WNP-2 SER, NUREG 0892) will remain open.

Very truly yours,

G. C. Sorensen, Acting Manager  
Nuclear Safety & Regulatory Programs
