## Washington Public Power Supply System

3000 George Washington Way P.O. Box 968 Richland, Washington 99352-0968 (509)372-5000  
Docket No. 50-397

September 6, 1983

Darrell G. Eisenhut, Director  
Division of Licensing  
US Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Eisenhut:

Subject: NUCLEAR PROJECT NO. 2  
REQUEST FOR EXTENSION FOR RESPONSE  
TO GENERIC LETTER 83-28

Reference: NRC Generic Letter 83-28, dated July 8, 1983

As a result of our review of Generic Letter 83-28, we request an extension of the time for submittal of the required information to February 29, 1984.

This extension is required because the 120 day response time coincides with our presently scheduled fuel load date for WNP-2. Completion activities in preparation for fuel load are the highest priority for our plant and corporate staff members in the near term. A later response to Generic Letter 83-28 would provide us with a better opportunity to consider all aspects of the request.

The February 29, 1984 date is consistent with the extension requested by the BWR owners group and would allow us to factor in the outcome of their activities. An INPO NUTAC has been established to address the Generic Letter 83-28 issues and we are participating in that activity. The extension will also permit us to consider the outcome of that effort in our response.

During this period of extension, we will continue to maintain contact with our Licensing Project Manager, Mr. Raj Auluck, on this subject.

Thank you for your consideration in this matter. If there are any questions on this subject, please contact Mr. Pat L. Powell at (509) 377-2501 extension 2298.

Very truly yours,

G. C. Sorensen, Acting Manager  
Nuclear Safety & Regulatory Programs
