Mr. J. B. Martin
Regional Administrator
U.S. Nuclear Regulatory Commission
Region V
1450 Maria Lane, Suite 210
Walnut Creek, CA 94596

Subject : NUCLEAR PROJECT 2
DISESTABLISHMENT OF QUALITY PROCESSES GROUP

Reference : WPPSS Letter G02-80-153, dated July 17, 1980

On page 2 of attachment 6 (item 5, second bullet) of the above-referenced letter the Supply System informed the Nuclear Regulatory Commission of the establishment of:

"A construction quality organization to focus responsibility for quality in the organization directing the contractors' work."

This organization was titled the "Quality Processes Group" and placed organizationally under the Supply System Construction Manager. Its functions were defined in PMI 5-16.

Construction on WNP-2 is nearing completion. Most of the construction contractors have been demobilized. The Supply System believes that the functions performed by the Quality Processes Group can now be assumed by the Systems Completion Group in the Construction Management organization.
