Docket No. 50-397

November 4, 1983
G02-83-1021

Director of Nuclear Reactor Regulation
Attention: Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2
RESPONSE TO GENERIC LETTER 83-28

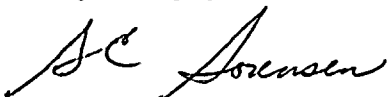

References: 1) Letter to D. Mazur, Supply System, from A. Schwencer, NRC, "Clarification of Required Actions Based on Generic Implications of Salem ATWS Events", October 25, 1983
2) Letter to D. G. Eisenhut, NRC, from G. C. Sorensen, Washington Public Power Supply System, "Request For Extension For Response to Generic Letter 83-28", September 6, 1983

Your letter of October 25, 1983 (Reference 1) which we received on November 1, 1983, denied our request (Reference 2) for an extension of the time to respond to NRC Generic Letter 83-28. You requested our response, to the extent practical, by November 5, 1983.

Although most of the information necessary to give you current status and implementation schedules for the items in Generic Letter 83-28 exists, a significant effort is required to put it into narrative form to respond to your request. We advised Dr. Auluck, on November 3, that our response will be mailed on November 18, 1983.

To aid your staff in planning their reviews, the enclosed information is provided.

Very truly yours,

G. C. Sorensen, Manager
