Docket No. 50-397

Director of Nuclear Reactor Regulation
Attention: Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

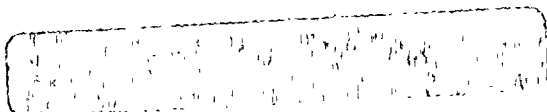

Subject: NUCLEAR PROJECT NO. 2
TMI ACTION PLAN EQUIPMENT QUALIFICATION

- References:
- 1) Safety Evaluation Report related to the Operation of Supply System Nuclear Project No. 2, Docket No. 50-397, NUREG-0892, Supplement No. 3, dated May 1983
 - 2) Letter G02-83-842, G. C. Sorensen to A. Schwencer, "Environmental Qualification Report for Safety-Related Equipment, September 1983", dated September 16, 1983

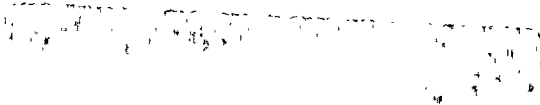

At Section 3.11.3.1, the reference SSER calls for certain actions by the Supply System for TMI Action Plan Equipment. This letter responds to the SSER request for action and confirmation.

NRC Concern:

"The applicant has identified the equipment required by NUREG-0737, "Clarification of TMI Action Plant Requirements", but the qualification status has not been established for all items. Before an operating license is granted, the applicant should identify the qualification status for all TMI Action Plan equipment. For any TMI Action Plan equipment not yet installed and that will not be installed prior to operation, a description of the plans for qualification, including the schedule for completion of qualification, must be submitted. (All TMI Action Plan equipment currently installed or that will be installed before operation must be qualified, or justifications for interim operation provided before an operating license is issued, in accordance with 10 CFR 50.49.)"

Response

All TMI Action Plan equipment has been reviewed to identify environmental qualification status. All TMI equipment is either environmentally qualified, justified, on Table B of the JIO, being purchased qualified for installation prior to fuel load, or in a mild environment.

While we judge that this response, along with Reference 2), addresses this SSER concern satisfactorily, we are available to assist your review if necessary.

G. C. Sorensen, Manager
