Docket No. 50-397

Director of Nuclear Reactor Regulation
Attention: Mr. A. Schwencer, Chief
Licensing Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2
PUMP AND VALVE INSERVICE TEST
PROGRAM PLAN UPDATE

The Supply System has recently revised the WNP-2 Pump and Valve Inservice Test (PVT) Program Plan. This revision (Revision 2) of the program plan incorporates the latest design and as-built information available as of October 25, 1983 and thus provides added assurance of material quality and public safety. The Supply System has been informed that neither the original version nor revision 1 to the PVT Program Plan has been reviewed by the NRC. The Supply System, therefore, respectfully requests that revision 2 of the WNP-2 PVT Program Plan be reviewed and approved for implementation in conjunction with the issuance of the WNP-2 operating license.

Enclosed for NRC review and approval are sixty (60) copies of Revision 2 of the WNP-2 PVT Program Plan and seven (7) copies of full-size blue lines of each applicable drawing.

Should you have any further questions, please contact Mr. P. L. Powell, Manager, WNP-2 Licensing.

Very truly yours,

G. C. Sorensen, Manager
Regulatory Programs
