Docket No. 50-397

Director of Nuclear Reactor Regulation  
Attention: Mr. A. Schwencer, Chief  
Licensing Branch No. 2  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Schwencer:

Subject: NUCLEAR PROJECT NO. 2  
QUALIFICATION OF PIPELINE MOUNTED EQUIPMENT

References: 1) NUREG-0892 WNP-2 SER Supplement No. 4  
2) Facility Operating License NPF-21

In response to WNP-2 SSER4, Section 3.10.1, and Operating Licensing NPF-21 Item 2.C(5)(b), this letter provides confirmation that we have completed our pipeline mounted equipment g value comparison program.

This activity consisted of an item-by-item review of the final as-built piping analysis g values against criteria employed for qualification documentation. All differences were reconciled by either qualification documentation upgrade, piping analysis refinement, or plans for physical plant modifications. Uncompleted plant modifications are scheduled for completion prior to exceeding five percent power. These items will be tracked to completion on the plant Master Completion List (MCL).

Should you have any questions, please contact Mr. P. L. Powell, Manager, WNP-2 Licensing.
