Mr. Knighton -

I recently sent you the State of Washington
response ~~of~~ on the WPPSS Nuclear Project
NO. 3 EIS. The letter from Dept of Fisheries
came into us late, after we sent the
response letter to you. If possible, could you
please attach this to the other state agency
letters. My apologies.

Sincerely,

Greg Sorlie
Dept. of Ecology

DEPARTMENT OF ECOLOGY
ENVIRONMENTAL REVIEW

Ms. Barbara Ritchie,
NEPA Coordinator,
Department of Ecology
St. Martin's Campus
Olympia, Washington 98504

Dear Ms. Ritchie:

WPPSS Number 3 Draft Environmental Impact Statement

We have reviewed the referenced report and find it thorough and complete as far as the aquatic resources are concerned. There are two additions that should be included in the final report, however. They are described below.

Table 4.6, on page 4-24, should include the 1982 coho plants as follows:

Fuller Creek	7,700
Workman Creek	42,000
Elizabeth Creek	25,500

The Department of Game should also be contacted to obtain any trout planting data also.

Under Section 5.3.1, the report dealing with toxic material studies is now available. It is entitled Toxicity of Copper, Zinc and Their Chemical Forms to Coho Salmon and Steelhead Trout in the Chehalis River, Washington.

Thank you for the opportunity to comment on the referenced document. We hope these comments will assist the Nuclear Regulatory Commission in completion of their report.

Sincerely,

Robert J. Wilkerson /for
William R. Wilkerson
Director
