1. The following changes represent only title changes. No deletion of support to WNP-2 or change of personnel is represented in these changes:

Power Generation Director	to	Assistant Managing Director for Operations
Technology Director	to	Engineering Director
Health Physicist	to	Health Physics/Chemistry Support Supervisor
Training Manager	to	Technical Training Coordinator

2. The following changes represent minor administrative changes. No deletion of support to WNP-2 or change of personnel is represented in these changes:

Support Services Director	- reports to the Assistant Managing Director for Operations
Spare Parts Material Supervisor	- fullfills a matrix reporting function to the Plant Maintenance Manager as the Procurement Manager. Day-to- day reporting to the Maintenance Manager is required, long term policy reporting is to the Manager, Corporate Contracts and Materials Management.

3. The following positions have been added to the plant organization. No deletion of support to WNP-2 is represented by these changes.

A Planning and Scheduling Supervisor has been added reporting directly to the Plant Manager.

Two Plant Engineering Supervisors have been added to the Plant Technical Manager's staff in response to increased activities and responsibilities.

The Shift Technical Advisers (STA's) are reflected as part of the Reactor Engineering Supervisor's staff.

4. The member of P.O.C. described as the Plant QA/QC Manager is the Plant QA Manager.

5. The change to Section 6.8.2 reflects implementing procedures for the Health Physics/Chemistry Support Program as being coordinated by the "Director of Support Services" instead of the "Manager, Radiological Programs". This change is made because the "Manager, Radiological Programs" reports to the "Director of Support Services" who has the final responsibility for this area. No deletion of support to WNP-2 or change of personnel is represented in this change.
