U. S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: REQUEST FOR APPROVAL OF CODE CASE N-341
FOR ASME SECTION XI APPLICATIONS
NUCLEAR PROJECT NO. 1, DOCKET NO. 50-460
NUCLEAR PROJECT NO. 2, DOCKET NO. 50-397
NUCLEAR PROJECT NO. 3, DOCKET NO. 50-508

The above referenced ASME Section III Code case, permits the certification period of an NDE Level III examiner to be extended from three (3) to five (5) years effective June 17, 1982.

This Code case was approved by the NRC for use by the nuclear power plant industry as set forth in Regulatory Guide 1.8.4, Revision 22, July 1984, for Section III applications.

The Code case further informs that the five year certification policy is already "ASNT" published policy and will be incorporated into SNT-TC-1A upon next revision.

ASME Section XI, 1983 edition, Winter 1983 Addenda, subarticle IWA-2300-(a)-(1) has already incorporated the five (5) year certification provision, but the 1983 edition of ASME Section XI has not yet been approved by the NRC for use by the utilities.

The Supply System wishes to utilize the provision of this Code case regarding certification of personnel. This provision will standardize certification of Level III for all our activities.

We hereby request that you consider your earlier approval of the Code case for Section III applications via Regulatory Guide 1.84 and the incorporation of the five (5) year certification period into the 1983 edition, W'83 Addenda of Section XI and grant us approval to apply the provision of this Code case to our ASME Section XI certification activities at WNP-1, WNP-2, and WNP-3 Nuclear Plants.
