Dear Mr. Martin:

Subject: NUCLEAR PLANT NO. 2
STORAGE OF WNP-3 NEUTRON SOURCES
AT WNP-2 FACILITIES

As the result of a September 13, 1984 telephone conversation between Mr. Bob Thomas of your staff and Messrs. P. L. Powell, H. L. Aeschliman, and J. O. Parry of the Supply System staff, it is the Supply System's understanding that it is acceptable for the Supply System to transfer sealed neutron sources belonging to WNP-3 to WNP-2's Hanford facilities for storage under the authority of the WNP-2 Operating License NPF-21. We further understand that the applicable portions of 10 CFR Part 70 will apply, and that records regarding this transfer must be available for review by the NRC's representatives.

Should you have any questions, please contact Mr. P. L. Powell, Manager, WNP-2 Licensing.

Very truly yours,

G. C. Sorensen, Manager
Regulatory Programs
