1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial system and for providing a clear audit trail. The text also mentions that proper record-keeping is essential for identifying trends and anomalies in the data.

2. The second part of the document focuses on the role of technology in modern accounting. It highlights how software solutions have revolutionized the way businesses manage their finances, allowing for faster processing and more accurate calculations. The text also discusses the challenges associated with implementing new technology and the need for ongoing training and support.

3. The third part of the document addresses the issue of data security. It stresses that as businesses rely more heavily on digital data, the risk of cyberattacks and data breaches increases. The text provides several recommendations for enhancing security, such as using strong passwords, implementing firewalls, and regularly backing up data.

4. The fourth part of the document discusses the importance of transparency in financial reporting. It argues that providing clear and concise reports to stakeholders is essential for building trust and ensuring the long-term success of the organization. The text also mentions that transparency is a key requirement for many regulatory bodies and industry standards.

5. The fifth part of the document concludes by summarizing the key points discussed and reiterating the importance of a holistic approach to financial management. It encourages businesses to stay up-to-date with the latest trends and technologies and to continuously improve their internal controls and reporting processes.

## Washington Public Power Supply System

3000 George Washington Way P.O. Box 968 Richland, Washington 99352-0968 (509)372-5000

Docket No. 50-397  
June 28, 1985  
G02-85- 352

Ms. Reba M. Diggs, Facilities Program Coordinator  
License Fee Management Branch  
Office of Administration  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Ms. Diggs:

Subject: LICENSE APPLICATION FEE

Reference: Letter R. M. Diggs (NRC) to G. C. Sorensen (Supply System) same subject, dated May 15, 1985

The referenced letter informed us that two (2) Class II fees (\$2400) were appropriate for the March 9, 1985 license amendment application. Since we only remitted one Class II fee (\$1200) with the original application, (which has since been granted in the form of Amendment No. 6 to our Operating License NPF-21) enclosed you will find a check in the amount of \$1200 for the remaining amount due.

We assume this completes our obligation concerning this matter. If there is anything further, please contact me.

Very truly yours,

  
G. C. Sorensen, Manager  
Regulatory Programs

Enclosure (check #4138 for \$1200 payable to the NRC)
