Letter G02-86-311, GC Sorensen (SS) to EG Adensam (NRC),
same subject, dated April 7, 1986

In reference 1 the Supply System indicated that NEDC-31107, one of the GE documents referenced in the WNP-2 Reload Summary Report (WPPSS-EANF-101), had been provided to us in preliminary form only at the time of our initial submittal. At that time we advised you that we would forward that document upon our receipt of it in final form.

We have now received that document in final form (NEDC-31107, "Safety Review of WPPSS Nuclear Project No. 2 - Core Flow Conditions Above Rated Flow Throughout Cycle 1 and Final Feedwater Temperature Reduction", dated March 1986) and have enclosed nineteen (19) copies to assist the staff in their review of our reload submittal.

Should you have any further questions please contact Mr. P. L. Powell, Manager, WNP-2 Licensing.

Very truly yours,
