Subject: NRC Review of BAW-10085P, Revision 6, "Reactor Protection System".

Dear Mr. Denton:

B&W Topical Report BAW-10085P, Revision 6, "Reactor Protection System", was submitted for NRC review in April, 1979. Because of project schedule changes, NRC review of this topical report is not in progress.

BAW-10085P is currently solely applicable to Washington Public Power Supply System's Unit 1 (WNP-1). As WNP-1 licensing is not active at this time and is not expected to resume for several years, we request that review of BAW-10085P be accordingly deferred until review of the WNP-1 FSAR is undertaken.

The above request also applies to BAW-10085, Revision 3, the non-proprietary version of this topical report.

If this is unacceptable for any reason, please advise.

Very truly yours,

J. H. Taylor/bcc
