Re: Nine Mile Point Unit 2
Docket No. 50-410

Gentlemen:

Enclosed for your use and information is a report that compares the electrical design of the Nine Mile Point Unit 2 wye pattern globe valve presently being installed with the ball valve design. The report also compares the wye pattern globe valve electrical design for Unit 2 with the Hanford 2 and River Bend electrical design.

This information was discussed with the Nuclear Regulatory Commission staff on April 2, 1987, and is provided to support review of the wye pattern globe valve design. For your information, there is no restriction on copying any of the drawings included in this submittal. If there are questions, please contact Mr. Zallnick of my staff.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
