Docket No. 50-397

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

Gentlemen:

Subject: NUCLEAR PLANT NO. 2
OPERATING LICENSE NPF-21
WITHDRAWAL OF REQUEST FOR AMENDMENT TO
TECHNICAL SPECIFICATION FOR SUPPRESSION
CHAMBER - DRYWELL VACUUM BREAKERS
(SECTION 4.6.4.1)

Reference: Letter, G02-86-080, G.C. Sorensen (SS) to
E.G. Adensam (NRC), same subject, dated 1/17/86

In the reference letter the Supply System requested an amendment to Section 4.6.4.1 of the WNP-2 Technical Specifications to change the surveillance frequency for suppression chamber - drywell vacuum breaker operability demonstration from 31 to 92 days. In the interest of helping to reduce the current back-log, and in order to allow the staff to concentrate their efforts on more currently pressing amendment requests, the Supply System hereby withdraws the subject request for amendment.

Should you have any questions, please contact Mr. P. L. Powell, Manager, WNP-2 Licensing.

Very truly yours,

G. C. Sorensen, Manager
