Dear Sir or Madam:

I am requesting to amend NRC license No. 21-04109-16 for Henry Ford Hospital (HFH) and the associated research and medical centers (Docket 030-02043). The purpose of this amendment is to correct the license. In a letter dated November 16, 2012 we sent a request "to permit sentinel node injections (e.g. lymphoscintigraphy use) at the Henry Ford Lakeside Medical center". This use is listed under Condition 10.E but incorrectly refers to Subitem 6.B for 35.100 use (uptake, dilution, and excretion studies). This should refer to Subitem 6.C for imaging and localization studies instead. My discussion with a license reviewer indicated that a new NRC Form 313 was not necessary since this is merely a correction of a typographic error.

If you should have any questions regarding this request, please feel free to contact Alan Jackson via phone at (313) 916-2739 or via e-mail at alanj@rad.hfh.edu.

Sincerely,

A handwritten signature in black ink that reads "Alan M. Jackson". The signature is fluid and cursive, with the first name "Alan" and last name "Jackson" clearly legible.

Alan Jackson, MS, CHP
Radiation Safety Officer
