RESPONSE TO IEB 88-07, POWER OSCILLATIONS  
IN BOILING WATER REACTORS (BWRS)

Reference: Letter, G02-88-196, GC Sorensen to NRC,  
same subject, dated September 12, 1988

The subject bulletin requested confirmation that licensed reactor operators and shift technical advisors performing shift duties were briefed on the LaSalle Unit 2 power oscillation event within 15 days and received additional specified training within 60 days.

In our response (G02-88-196) we addressed licensed operators but not STAs. This letter is to confirm that the STAs also received this training.

Very truly yours,
